

Be Warned

In time. Kidney diseases may be prevented by purifying, renewing, and invigorating the blood with Ayer's Sarsaparilla. When, through debility, the action of the kidneys is perverted, these organs rob the blood of its needed constituent, albumen, which is passed off in the urine, while worn out matter, which they should carry off from the blood, is allowed to remain. By the use of Ayer's Sarsaparilla, the kidneys are restored to proper action, and Albuminuria, or

Bright's Disease

is prevented. Ayer's Sarsaparilla also prevents inflammation of the kidneys, and all diseases of these organs. Mrs. Jas. W. Weld, Forest Hill st., Jamaica Plain, Mass., writes: "I have had a complication of diseases, but my greatest trouble has been with my kidneys. Four bottles of Ayer's Sarsaparilla made me feel like a new person; as well and strong as ever." W. M. McDaniel, of Sumner st., Boston, Mass., had been troubled for years with Kidney Complaint. By the use of Ayer's Sarsaparilla, he not only

Prevented

the disease from assuming a fatal form, but was restored to perfect health. John McEllan, cor. Bridge and Third sts., Lowell, Mass., writes: "For several years I suffered from Dyspepsia and Kidney complaint, the latter being so severe at times that I could scarcely attend to my work. My appetite was poor, and I was much emaciated; but by using

AYER'S Sarsaparilla

my appetite and digestion improved, and my health has been perfectly restored."

Sold by all Druggists.

Price \$1; Six bottles, \$5.
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U. S. A.

INDIGESTION

To strengthen the stomach, create an appetite, and remove the horrible depression and despondency which result from indigestion, there is nothing so effective as Ayer's Pills. These Pills contain no camelline or other poisonous drug, act directly on the digestive and assimilative organs, and restore health and strength to the entire system. T. P. Bonner, Chester, Pa., writes: "I have used Ayer's Pills for the past 30 years, and am satisfied I should not have been alive to-day, if it had not been for them. They

Cured

me of Dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since." L. X. Smith, Utica, N. Y., writes: "I have used Ayer's Pills for liver troubles and indigestion, a good many years, and have always found them prompt and efficient in their action." Richard Norris, Lynn, Mass., writes: "After much suffering, I have been cured of Dyspepsia and Liver troubles

By Using

Ayer's Pills. They have done me more good than any other medicine I have ever taken." John Burdett, Troy, Iowa, writes: "For nearly two years my life was rendered miserable by the horrors of Dyspepsia. Medical treatment afforded me only temporary relief, and I became reduced in flesh, and very much debilitated. A friend of mine, who had been similarly afflicted, advised me to try Ayer's Pills. I did so, and with the happiest results. My food soon ceased to distress me, my appetite returned, and I became as strong and well as ever."

ANOTHER TERRIBLE RIOT.

HOUSES WRECKED AND MANY PEOPLE INJURED.

Sligo the Scene of an Outbreak Between Orangemen and Catholics, in Which Several Persons are Shot—Earl Carnarvon and Parnell—Foreign News.

Sligo, June 13.—A terrible riot occurred here on Saturday night, during which several houses, occupied by Protestants, were wrecked and many people injured. The Catholics, maddened by the violent acts of the Orangemen at Belfast, began a crusade against Protestants, and for several hours held possession of the streets. The residence of some of the leading Orangemen here were burned to the ground. The military charged the mob, which fought desperately. Several of the rioters were shot. Extra police have been sworn in, and with the assistance of the army the military has since been able to preserve order.

The riot is alleged to have originated from the anger of the Catholics over the destruction of the railway station by the bishop's palace. No one could tell who committed the act of vandalism, but it was at once ascribed to Orangemen and thousands of Catholics assailed and beaten on their way to the persons and property of Orangemen.

The riot act was read but it was not heeded, and it was only when the military poured a volley of shot into the crowd that they desisted in their work of destruction. A Methodist church, the residence of a Congregational minister and several club houses were attacked and wrecked.

Bavarian King Sidelined.

LONDON, June 15.—A dispatch just received here from Munich contains the startling intelligence that King Louis II, the recently deposed Bavarian monarch, who left the palace yesterday for Berg castle, on Lake Starnberg, committed suicide at that place this morning by shooting himself in the head. It is said that his attendants were momentarily off their guard. The king was promenade in the park grounds, surrounded by his guards. Dr. Gaidner, the attending physician was also in the park watching the patient.

The king, awaiting a favorable moment, made a dash for Lake Starnberg, on which the castle grounds are situated, and threw himself into the water. He was almost instantly missed by his attendants, who immediately gave the alarm and dashed off after his royal charge. The king, however, reached the lake before any one could intercept him, when the doctor had reached the edge of the lake the king was struggling in the water. The doctor sprang into the lake in hopes of rescuing the drowning sovereign and in the desperate struggle between both king and physician went down and were seen no more.

Parnell Misunderstood Him.

LONDON, June 15.—Earl Carnarvon writes that the initiative between himself and Mr. Parnell was due to neither himself nor Mr. Parnell, but to third parties. He expresses his regret that it was necessary to understand the conditions he laid down as governing the conference. "I recollect perfectly," he writes, "that I stated that I proposed nothing. Mr. Parnell did the bulk of the talking, while I put questions, suggested difficulties and raised objections for him to answer or explain. He dwelt upon the character and functions of a central legislature. The necessity of developing Irish industry was the subject he alluded to in some kind of protection, as a necessity to promote Irish industries, to which I replied that whatever my individual opinion might be in regard to protection, any proposal must arouse great objections from many classes. I regret that my impression of the conversation, as given to me by Mr. Parnell, was not entirely misunderstood."

Press Opinions of Gladstone's Manifesto.

LONDON, June 15.—The Daily News, discussing Mr. Gladstone's manifesto, says its clear, sharp and decisive sentences bristled with resources and common sense the words which the opposition has so industriously spread to confuse and entangle the question. The people will flock to Mr. Gladstone's support.

The Standard says Mr. Gladstone's address labors under the disadvantage of appearing to be a regularity of common sense. The manner of it is good—better than Mr. Chamberlain's. It is concise, clever and to the purpose, and every elector will understand for once what Mr. Gladstone means, but if he understands the rest of the controversy he will at once pronounce the manifesto inadequate.

The Daily Telegraph pronounces Mr. Gladstone's manifesto an extraordinary address, which cannot be perused without a feeling of admiration for the power.

Cyrus W. Field.

LIVERPOOL, June 15.—Mr. Cyrus W. Field and his son and Justice Stephen M. Field, arrived by the Umbria yesterday morning. They were taken to the residence of Mr. C. T. Russell, United States consul at this port, and conducted to the Grand hotel. Mr. Cyrus Field proceeded to London. The rest of the party remain here.

Socialistic Conference.

BRUSSELS, June 15.—The Socialistic conference which met here was, contrary to expectation, entirely orderly. Resolutions were passed declaring that the Socialists would pursue their objects legally, unless provoked by the authorities to violence.

Toward a Riot on Foot.

TOMBIGHEE, June 15.—A drive of nearly two thousand steers to Laramie, Wyoming Territory, from Apache country, making a new era in the history of the Arizona live stock industry. It is the first drive of the kind ever made from the territory. Should it prove successful it will doubtless be followed by many more, and drive from Arizona to Laramie, Denver and other beef shipping points on the Central Pacific may become a permanent institution of great importance.

Cattle men in Western Texas have organized an association for the sinking of an extensive system of wells for the watering of stock.

SENSATIONAL SUIT.

Action Brought to Recover Money Paid for a Bribe.

MONTREAL, June 15.—An action now proceeding in the superior court here is causing a good deal of interest. L. A. Senneker, a road magistrate who has made a good deal of money in this province, and A. X. Archambault, a lawyer, to recover \$1,500, which he entrusted to the defendant to bring two French Liberal papers, La Patrie, of Montreal, and Le Lecteur, of Quebec, to support a bill he had presented to the local legislature to get power to build a railroad tunnel under the St. Lawrence river. The act never passed, and plaintiff never got a satisfactory explanation of how the sum was expended, until witnesses were examined at the trial. Archambault testified that he had paid Senator Thibault \$500, and \$1,000 to Profatinate, a lawyer and Liberal candidate for the legislature. Senator Thibault, in his evidence stated that he had received the money, but that he had advanced the amount previously to Archambault in connection with politics, and kept the money to repay himself.

Mr. Profatinate admitted getting the \$1,500 but his accounts for the money, as given by the daily journal mentioned that he divided the full amount between for their patronage of the scheme. The money was given to him and the amount increased each day. The plaintiff has supported the Conservative governments, both Federal and provincial, for years past, and before the last general election for the local house was charged with expending \$100,000 to influence the return of men to support the local government, while the defendant was appointed to purchase the North Shore railroad from here to Quebec, which he subsequently sold to the Canadian Pacific for \$2,000,000 profit, the half at least being his own share.

BOILER EXPLOSION.

Feet of Death of John Rossier from Inhaling Steam.

CINCINNATI, June 15.—At 9 o'clock, John Rossier, 25, engineer on the Cincinnati and Dayton, on Genesee street, between Plum and Central avenues, stepped across to Bonte's factory, directly opposite, to return a chain. He invited John Fugere, an engineer at Bonte's to go back and look at a leak in his boiler. The two walked across the street to Genesee engine room, where they found a boiler to enter, Goodall's boiler let go with a muffled noise. A fire had burst, and the rushing steam threw the fire and bricks of the furnace into a pile of slavings, setting them on fire.

Rossier rushed around the shed into the back way, to get out, while Fugere followed with a bucket of water a minute later. The latter arrived in time to see the room filled with flames, and the steam which he attempted to enter, he noticed Rossier, who had rushed into the steam, fall backward with a groan. The fire was soon extinguished, and the body of Rossier, who was lying on the ground beside his boiler. Not a mark of bruise could be found on him, and when the coroner arrived he found that death resulted from inhaling the steam. The body was taken to his wife and children at 588 Walnut street.

Rossier was a member of Cherry lodge, No. 36, A. O. U. W., and was a good engineer. The engine was purchased new from the McJannet & Co. of Cincinnati. Goodall is of the opinion that the boiler consumer has won the better consideration. It cannot be reviewed so much steam was on.

REV. SAM JONES.

Preaching to the Sinners of Indianapolis to Save Their Souls.

INDIANAPOLIS, June 15.—Sam Jones opened his work in Indianapolis by preaching three sermons, and at each of his meetings in the City hall fifty,000 people were in his audience. The sermon was a new one, unable to get even standing room. In his sermon in the afternoon he served notice upon the people that he would not accept any small amount of money as his fee. He said that if it was money that he was seeking he would have come to Indianapolis for a large fee, but that he had been offered by a lecture bureau \$300 a night for 100 lectures, but that notwithstanding the fact that \$3,000,000 of money had been offered to continue his work of saving the souls of sinners for nothing.

They Lynched Him in Fun.

GRAND PRAIRIE, Dak., June 15.—A few days since a lynching occurred near St. Andrews, on the Red River. Ole Beckwith, working for a farmer, supplanted the farmer in his wife's affections. He tried to induce the man to leave, but the wife would not consent. Finally the farmer gathered a large number of neighbors, tapped a jug of alcohol, and all got quite drunk. At a suggestion of the farmer they got a rope, threw one end over the limb of a tree and the other around Ole's neck and drew him up. It is stated that their intention was only to frighten him, but he remained suspended, some time, and when he was lowered he was found dead.

Mobbed for Trying to Preach.

WILKESBARRE, Pa., June 15.—John Daley, who recently abjured Catholicism, attempted to preach in River park, but was prevented by a mob of 3,000, of whom the rougher element of the mining region, who assailed him with a view of throwing him into the Susquehanna river. Had it not been for the interposition of the police, who were present in strong force, Daley would no doubt have been seriously injured if not killed. He was finally escorted home by a force followed by an infuriated mob, who made violent efforts to lay hands upon him. Daley attempted to proceed to the same place last Sunday, but was prevented.

Drowned or Murdered.

SCHENECTADY, N. Y., June 15.—Edward Ogerman, a railroad laborer, aged forty-eight, was found dead in the canal here, his body was frightfully mutilated, the head hanging by a shroud. He was last seen alive on Monday night. An autopsy will be necessary to determine whether he was drowned or murdered and then thrown into the water. A passing boat might have mangled the body. He was of dissipated habits. He leaves a widow and two children.

WASHINGTON GOSSIP.

SOCIETY AT THE CAPITAL IN THE SUMMER SEASON.

Hot Weather Has No Terror for the Present or Prospective Ladies of Society—Nobody to Leave During the Month of July—The President's Visit—Notes.

WASHINGTON, June 15.—Appearances indicate that this is indeed to be a summer of roses and wine. Nobody in health is making preparations to leave the city during July. Hot weather has no terrors, present or prospective, for the ladies of society. Everything is in abeyance until after Tuesday night. The White House reception will be the signal that the summer season has begun. Since last nobody has made an effort. Never before in this generation has the capital been so slow to recover from the period of repentance and fasting. Now, to the music of the Marseillaise, the young mistress of the White House will set the new pace at which society must go for the next two months, or until the congressional mechanism runs down.

A feature of the coming state reception will be the presence of Prince Auguste de Saxe Coburg Gotha, grandson of the Emperor of Brazil. The prince is expected to arrive in this city next Monday, accompanied by several officers from the ship. On Tuesday the visitors will be presented to the president by the secretary of state.

Committee Reports.

WASHINGTON, June 15.—The joint congressional commission appointed to consider the advisability of organizing the scientific bureaus of the government has, as previously stated, in these disastrous times, submitted several disagreeing reports. A majority report, signed by Senators Allison and Hale, and Representatives Lowry and Watt, think it will be wise to organize a central bureau of the navy department when the original surveys shall have been completed. A minority report signed by senator Morgan and representatives Herbert and Watt, recommends the passage of Mr. Morgan's bill to establish the signal service bureau on the first of July next, and establish in its stead a weather bureau, under the direction and supervision of civilians. Senator Morgan and representative Herbert recommend the transfer of the coast survey work to the hydrographic office of the naval department.

Senate.

WASHINGTON, June 15.—In the senate immediately after routine business, Mr. Dolph moved that the Northern Pacific forfeiture bill be taken up.

Mr. Beck urged the senate to take up the reconsideration of Mr. Hawley providing for the prohibition of the sale of hydraulic power or employment from railroad companies that have received aid from congress. Mr. Beck thought this a privileged question. The clerk read a privileged question pending another motion. The forfeiture bill was taken up and Mr. Call proposed his remarks, supporting the proposition to forfeit all lands not earned within the prescribed time.

House.

WASHINGTON, June 15.—Mr. Cobb, of Indiana, called up the report of the committee on public lands recommending concurrence in the senate amendments to the Atlantic and Pacific land forfeiture bill.

Mr. McKee, of Arkansas, opposed the amendments, contending that their adoption would convert the bill into a confirmatory act. The report of the committee was agreed to by a vote of 119 yeas and 60 nays.

Will Visit the Sage.

WASHINGTON, June 15.—Before President Cleveland goes to the Adirondacks in July, he will be the guest of Samuel J. Tilden, at Camps for two days. He will be accompanied by his wife and daughter. He will be the guest of Governor Hill, at the executive mansion. This would seem to rest the story of unfriendly relations between the two gentlemen.

Again Postponed.

WASHINGTON, June 15.—The house committee on elections again postponed for two weeks the Kild-Steele contested election from Indiana. The case has been postponed for eight times, and it is understood it will not be disposed of at this session of congress.

Appropriations.

WASHINGTON, June 15.—The sundry civil appropriation bill was completed this morning but will not be given to the press in detail under a couple of days. The bill appropriates \$21,054,822. The estimates were \$28,754,000. The amount appropriated by the bill last year was \$26,205,747.

INFIRMARY DIRECTOR.

Sentenced to Twelve Years in the Ohio Penitentiary.

CINCINNATI, June 15.—Fred Herrmann, the defaulting ex-city infirmarian director, appeared in Judge Maxwell's court, accompanied by his attorneys, W. Austin Goodman and Ike J. Miller's son. When arraigned upon the six indictments against him, relating to the city infirmaries, he pleaded guilty in a firm voice.

Judge Maxwell thereupon sentenced him to the penitentiary for twelve years, each indictment, a total of twelve years, but granted a stay of execution for thirty days. Immediately thereafter Prosecutor Pugh was given notice that an application for a writ would be immediately made. Herrmann was taken to jail.

This move indicates clearly that Herrmann's testimony before the grand jury and his expected testimony in court have won for him the consideration of the governor and others, so that he will be virtually set free.

Brakeman Killed on His Train.

NEWBURG, N. Y., June 15.—An Erie brakeman named Amos Beebe was killed at Greenwood. One of the wheels on his train was hot, and leaping over the side of the car, his head was struck by a bridge, and he was knocked into the creek below. His body was recovered and taken home to Fort Jervis.

CROP REPORTS.

Brief Dispatches from Various Parts of the Country.

CARTHAGE, Ill., June 15.—Further reports from this county and adjacent territory confirm the fears of a famine to grow out of the continued drought. Grasshoppers and chinchbugs are doing bad work in localities. Rain is very badly needed. The promise of the largest crop in years would probably be sustained by an immediate shower.

In Want of Rain.

PORT DOUGLAS, Ia., June 15.—The continued drought has materially injured the crops. Oats especially have suffered, and more than anything else the flax crop. Most of it has been sown in soil breaking. What has come up is parched, and much of it lays in the ground without moisture enough to sprout it. The crop will be almost an entire failure.

Came Just in Time.

FR. KNOX, Mont., June 15.—It has been raining in eastern Montana for two days and the prospects are that it will continue for some days longer. Grass has taken a new start and the prospect is that it will generally all over this section of the northwest. The shower came just in time to save a grass famine this year.

Rain in Illinois.

CHENOA, Ill., June 15.—This vicinity has been visited by a gentle rain which was much needed. Oats were suffering for rain, but it has come in time. Corn is in fine condition and of wheat and it is very promising for a good crop. It has the appearance of more rain.

Drought Broken.

CHAMPAIGN, Ill., June 15.—The long prevailing and disastrous drought was broken here by heavy rain which did not come until for many hours. It will be worth large amounts of money to this section of the country.

In Wisconsin.

WATERTOWN, Wis., June 15.—The present drought is the worst in thirty-five years. Under the most favorable conditions a short crop of nearly all kinds must be the consequence.

SUICIDED WITH A RAZOR.

An Old Man Prefers Death to a Trial for Murder.

YONKERS, N. Y., June 15.—Today the trial of Farmer David H. Converse for the murder of his wife, was to have begun in Lyons, N. Y. He had been indicted on the first of July yesterday and asked to be allowed to shave himself for the trial to-day. The sheriff gave him a razor, and went away for a short time. Ten minutes after the crime of the prisoners called him back, and he found that Converse had cut his throat from ear to ear in his cell.

Physicians called upon the wound, but there is little hope of his recovery. He left a letter saying that his counsel had deserted him, and that being unable to accept fees, he charged against him he drowned a trial. His son, to whom he turned over all his property as soon as he was arrested so as to get good attorneys for the defense, informed that the old man's money in drunkenness and riotous living, and the prisoner was then left with only friends or acquaintances to help for the trial. The sheriff believes that this and long confinement in jail have made the old man insane.

Sword Contest.

DEVER, Colo., June 15.—The sword contest between Rose and Walsh in the championship was fought in the presence of 5,000 people. Rose was the victor in the seventh attack, knocking Walsh from his horse in a senseless condition. Interest was first shown in the fourth attack when Rose claimed the decision against Walsh as being right. The umpire's decision made Rose angry and he fought with savage blows during the rest of the contest. In the seventh attack the point was won by Walsh by a right participant, cutting Rose's breast plate but before the decision of the umpire was given Rose gave Walsh a terrible blow on the head, which fell from his horse. At this time the record was eleven points to six in Walsh's favor. The sergeant being unable to appear in the arena again the trial was adjourned to the next day, to have fought for twenty-nine points Walsh is not injured.

Sunglasses Caught.

EL PASO, Tex., June 15.—The collector of customs for this district has received information of an important capture near Denning, N. M. A band of Mexican smugglers were overhauled and surrounded. They had a dozen pack mules loaded with goods, and were driving sixty-four head of cattle and twenty horses, all of which had been smuggled across by a circuitous route which has been known by Mexicans for many years. Five Mexicans were arrested and lodged in jail. They are under the lead of Capt. Ignacio Ibarra, formerly an army captain.

Testing the Atlanta's Engines.

NEW YORK, June 15.—The engines of the new government cruiser Atlanta were tested yesterday in the dock at the foot of East Ninth street, the presence of the army, navy, contractors and practical engineers in the navy. The turns of the screw to the minute required to pass the dock test is fifty-four. Yesterday the revolutionists caused the required number, which is remarkable on a first trial. It is expected that the vessel will be ready to be taken to the Brooklyn navy yard on Tuesday, on which day she will start on her trial trip.

Probably Fatal Quarrel.

GRAFTON, Va., June 15.—An affray, the result of which will probably be fatal to one of the participants, occurred at Grafton, Va. George Gregg and Will Hickett, two boys about eighteen years of age, met at one of the new saloons, where they were engaged in an altercation, during which Hickett struck Gregg with a heavy piece of sandstone, crushing his skull. The full extent of the injuries cannot be ascertained until the body is examined, but there is little hope that Gregg will live.

HARRISBURG, Pa., June 15.—Governor Pattison has issued a warrant for the execution of Michael McCalla, alias Michael McCalla, of Fayette county, on the 12th of August. The doomed man shot Rocco Conventual last fall and robbed him of \$150 and other articles.

Chicago Markets received every ten minutes. Orders taken for 1,000 bushels and upwards. Office on Corn Exchange Building.

THE EVENING BULLETIN

TUESDAY, JUNE 15, 1886.

ROBERT & McARTHUR,
Publishers and Proprietors.
To whom address all communications.

SIGNAL SERVICE: "Local rains, followed by fair weather. Slightly cooler."

WHITE soap 5 cents, at Calhoun's.

The June term of the Lewis Circuit Court convened yesterday.

The assessed value of land in Bourbon County is over \$8,000,000.

Mrs. LEACH & CHENOWETH are putting in a new boiler at the ice factory.

The Chester authorities advertise elsewhere for bids for the grading and macadamizing of Main street.

HAVE used Tongaine in a case of facial neuralgia with excellent results.—M. D. Hill, M. D., St. Louis, Mo., June 15, 1886.

WATSON'S Refrigerators, the best in the market. Call and see them.
10461 BLATTNER & POWER.

A new postoffice has been established at the mouth of Bull creek, and it is called Plumville. H. S. Mattingly is the Post Master.

The creditors of George Graham, deceased, are elsewhere notified to present their claims to Master Commissioner, G. S. Wall.

FOR SALE.—Carriages and buggies, cheap, at F. Dietrich & Sons'. Bound to sell. Prices to suit the times. All work warranted.

DR. G. W. MARTIN, of Valmont, Lewis County, is here on a visit. He reports some smut in the wheat in that section. The harvest began last Friday.

ANNE MARSHALL, of Lewinsburg, has accepted a situation as clerk in Miss Anna M. Frazier's store and will be pleased to have his friends call.

By reference to our Dover correspondence, it will be seen that a force of 150 hands will be placed at work on the railroad at "Camp Hanna" to-day.

Mrs. F. B. COLLINS, who has been engaged in the millinery business here for several years past, made an assignment yesterday to Deputy Sheriff John W. Alexander. The assets and liabilities are not stated.

"This best is always the cheapest" is an old axiom and, as the Diamond spectacles are the best, don't pay a peddler twice their price for an inferior article simply because he styles himself "doctor." They are for sale by Ballenger, the jeweler.

CAPTAIN G. W. TUDOR left this morning for Cincinnati, and will be absent for a few days. Parties wishing to engage the services of Hauck's Reed and Brass Band in his absence will address or call on Wm. Cole, at Robinson & Co.'s, Market street.

The June term of the Mason Quarterly Court convened this morning. There are 223 cases on the docket. This large docket is accounted for by the fact that the last Legislature granted jurisdiction in all civil cases where the amount in controversy was less than two hundred dollars.

BACKACHE, stitches in the side, inflammation and soreness of the bowels, are symptoms of a disordered state of the digestive and assimilative organs, which can be promptly and thoroughly corrected by the use of Ayer's Cathartic Pills. As dinner pills, and as aids to digestion, they have no equal. They cure constipation.

LAST Saturday evening near the Reform church on the other side of Lewinsburg, on the Mt. Sterling turnpike, a difficulty occurred among some negroes during which John Dorsey was shot in the leg and Asa Pearl through the hand. It is thought that one Dock Small did the shooting but it is not known whether it was intentional or not. All were colored and in the wagon together.

Change of Time.
On and after Monday, June 21st, the steamer Handy No. 2 will leave this city at 12 o'clock (noon) arriving at Portsmouth at 8 o'clock, in time to connect with the Scioto Valley Railroad for Ironton, Ashland, Cadetsburg, Huntington, Charleston and Richwood, Va.

"Honor to Whom Honor is Due."
Mrs. Colonel Gu Simons deserves all the praise she receives for the part she took in making the concert and supper at Aberdeen last evening a complete success. She has done a noble work for the Baptist Church of that city, the repairing and fitting it up being done very largely by her untiring energy. The supper last evening, served at her residence, surpassed anything our citizens have had the pleasure of attending lately. A handsome sum was netted from both concert and supper and will be donated to the church.

County Court.

The following reports of settlements died at the last term were ordered recorded:
Charles Bland, guardian of Maude Bland, (now Wiggins).
Jessie Wood, guardian of Josie Wood.
Angus M. Wood and Mary S. Wood.
Martin L. Spencer, administrator of Simon B. Spencer.

J. Barbour, executor of Lizzie Cox.
The following reports were filed and laid over for exceptions:
E. C. Ross and others, administrators of John Reese.
J. C. Thornton, administrator of Michael Thornton.

S. M. Stodge, administrator of Winney O'Bannon.
J. A. Slack, guardian of E. C. Slack.
M. C. Hutchins, trustee of R. Albert, deceased.

J. L. Browning, guardian of Jerry Williams and Ella Williams.
G. S. Anderson, executor of Elizabeth Anderson.

J. F. Barbour was appointed and qualified as administrator of James G. White, with James Barbour and Newton Cooper sureties. Wesley Vicory, John D. Brewer, and J. H. Rains were appointed appraisers.

Thomas Lally was exonerated from payment of tax on \$1,250 on land this year.

Geo. F. Eitel executed bond as coffee-house keeper, with Louis Ross security. Higgins & Co. were granted license to sell spirituous liquors at store in Mt. Gilead for one year.

Sheriff Perrine executed bond for collection of county levy and sinking fund tax for this year, with R. T. Torhune, Claymont T. Worthington, Wm. Rhodes, Jas. E. Brook, James H. Rice, B. L. Bacon, Robert Perrine, S. A. H. Hall, Edwin Lloyd, W. L. Holton, and J. C. Pickett sureties.

Martin Jacobs was admitted a citizen of the United States.

Housekeeper's Delight.
Blattner & Power have just received the most improved gasoline stove now in the market. Low down oven. Cheap and best.

They Must Go.
From this date until every pair of boots and shoes in my stock is sold, I will offer the most wonderful bargains ever heard of. This is the last opportunity you will have to secure the best boots and shoes at such low prices as to produce them. Don't delay. The first call will secure best bargains. Respectfully,
242W F. B. RANSOM.

The concert at the Baptist Church, in Aberdeen, last evening, passed off very pleasantly and was a success. The church was filled to its full seating capacity, a large crowd from this city, and several parties from Ripley and Manchester being among the audience. The programme was a most excellent one, composed of vocal and instrumental music and recitations, and was faithfully carried out by Master Charles Trapp and Misses Lottie McDaniel, Stella Charles, Nanrie Burrows, Lilla Wheeler, Florence Yago, — Hall, and Mrs. Ross, and Messrs. Barbour and Cochran, and Prof. Frost, of this city; Miss Maggie Reidie and Mr. Frank Ellis, of Aberdeen; Miss Phillips of Manchester, and Prof. Meeks of Cincinnati. Hauck's Reed and Brass Band assisted in the concert, and rendered some of its best selections during the supper at Colonel Simmons', at the conclusion of the entertainment at the church. The success of the affair is due to the indefatigable labors of the ladies who had the matter in charge.

Personal.
Miss Ada Coons is visiting relatives at Fairmount.
Mrs. Dr. Marshall, of Augusta, is the guest of Judge W. P. Coons.

Miss Hannah Swift has returned from a week's visit to her sister at Lexington.

Miss Emily Sudthit, of Flemingsburg, is visiting Mrs. George T. Wood at "Pearl Hill."

Miss Lula Mitchell, after a pleasant visit to Washington, D. C., has returned home.

Colonel Thomas Marshall and daughter, of Salt Lake City, returned home on Saturday.

Rev. J. W. Mitchell, formerly pastor of the M. E. Church, South, assisting in the protracted meeting now in progress in Chester.

Judge Wall, candidate for Congress, Winfield Buckler, Esq., of Paris, candidate for Superior Court Judge, Sol. Robertson, Chairman of the Democratic Executive Committee of Nicholas, and James H. Salloe, Esq., nominee for Commonwealth's Attorney, all went to Vancsburg last night.

Notice.—My business must be closed at once. All knowing themselves indebted to me will please call and settle immediately, as circumstances are such that I will be forced to place for collection all accounts not settled by July 1st.

242W F. B. RANSOM.

OUR NEIGHBORS.

DOVER.
W. J. Havens made a business trip to Cincinnati last Tuesday.

Hal. Curran, of Mayville, spent Sunday here with his parents.

B. E. Adams and wife, of Bloomington, Ind., are the guests of S. T. Evans.

Mrs. Martin Buchman is visiting her son, Harry, at Ironton.

E. Metz, of the Lexington Bible College, is visiting his parents near town.

The Baptist Church supper was a success, considering the small number given.

Mrs. H. F. True spent several days with her son and daughter near Ripley, O., last week.

Mrs. Kate Richardson, of that city, is visiting her little daughters who are visiting relatives at Ripley, O.

A. M. Vardeman, Baptist minister of Mayville, preached here Monday and Tuesday last.

T. C. Campbell, one of the legal luminaries of the Mayville bar, was on a short business trip here Tuesday.

W. J. Ramsey, representing the Havana Cold Storage Company, was calling on our merchants last Monday.

John S. Wilson has recently purchased a new improved steam thrasher, and will use it on the road in his line after harvest.

The Sunday school of the M. E. Church, at Ripley, O., held its annual conference Friday at the beautiful grove at the saw mill, and was well attended. A beautiful dinner was served and the day was otherwise pleasantly spent in social merriment, singing and other amusements.

Miss Mollie Boyd, of whose illness mention was made in our issue of the 11th inst., died at the age of sixteen years, after a long illness, on Friday at the residence of her father, Mr. Boyd, near Ripley, O. The funeral was attended by a large number of friends, and the remains were interred in the cemetery at Ripley, O. The deceased was much beloved and her death is a great loss to her family.

Town property is on the boom.

The prospects for an improvement in business here are certainly very encouraging.

There were one hundred and thirty-seven horses and mules, and thirty-seven wagons here Saturday by over-land route from Winchester, Ky.

One hundred and fifty men will commence work here to-day, and will be increased a good deal by the end of the week.

Captain Mundy and his subordinates are clever and capable gentlemen, and have made a good impression on the community.

Several parties were here last week looking out for land for investment in real estate.

Captain James A. Mundy arrived Monday with sixty convicts of the State Prison, and will begin active operation on Tuesday.

"Camp Hanna" is the most pleasantly situated of any on the line. Its being on the bank of the river in a beautiful grove makes it a delightful place.

MAYFIELD.
Thursday last, the county meeting of the members of the United Brethren Church, was held at the residence of Elder W. A. St. John, and was well attended.

Friday night, the Sunday School Institute was opened, Elder P. H. Duncan, state evangelist, presiding. The evening was well spent by all present in the song service, and in object lessons in a very attractive way.

Friday night, the Young Men's Association, under the leadership of Elder E. L. Powell, gave a song service at W. J. Hall's, of Flemingsburg.

Friday a surprise visit was made by S. Judd and wife, Mr. Dr. Dougherty, Miss Noll, Prof. Meeks and Rev. A. M. Vardeman, who accompanied by the ladies, and the evening was well spent in the song service, and in object lessons in a very attractive way.

Friday night, the Young Men's Association, under the leadership of Elder E. L. Powell, gave a song service at W. J. Hall's, of Flemingsburg.

LUCIFER MATCHES.

A WALK THROUGH THE FACTORY WHERE THEY ARE MADE.

How the Blocks of Wood are Cut Up—Coating the Splints with Paraffine—Framing and Dipping—Drying and Boxing—Precautions Taken.

The wood used in the manufacture of lucifers is the best pine plank, as from green wood it can be produced, thus making it cut across the fibers by means of a circular saw, into twenty-eight or thirty blocks, each measuring eleven inches long, four and one-half inches wide and three-eighths thick. These blocks are cut up into splints by a machine of simple but ingenious construction, which will endeavor to explain in a few words.

To the extremity of the horizontal arm of a crank is attached a frame which reciprocates to and fro with the motion of the crank through a space of about four inches. In this frame are fixed in a line some thirty or forty lucifers with the points projecting upwards, and separated from each other by pieces of brass. The block of wood to be cut is inserted by the small end, between uprights, and a lever placed upon it forces it down to such a position that as the lucifer point advances, the end of the wooden block is scored or cut in the direction of, or parallel with the fibers, with as many lines as there are lucifers. As the lucifers are drawn by the motion of the crank, a scythe blade moving in a horizontal plane swings round, and cuts off the end of the block to the depth of the points of the lucifers.

RAPIDITY OF THE CUTTING PROCESS.
The pieces thus cut off will evidently be four sided splints, square in section, supposing, as is the case, that the lucifers are equidistant, and that the horizontal knife cuts exactly to the depth of the lucifer scores.

When the horizontal knife swings back, the block, from which one layer of splints has thus been removed, descends through a space equal to the depth of the section, the lucifer points again advance, and the cycle again does its work. In this way the cutting is carried on with such rapidity that from ten to fifteen blocks in ten feet long, ten inches wide, and one inch thick can be cut up into splints in a day of ten hours.

As the splints fall off the block by the action of the scythe blade, they fall a short distance immediately under into a room below, where they are tied up into bundles.

Next comes the coating of paraffine which the match requires. For this purpose sulphur was used for this purpose until quite recently, but is now almost entirely discarded. In one of the rooms is a furnace employed in keeping the sulphur molten, and a platform to hold the splints. The splints are brought here in bundles, placed for a moment on the lower platform to heat their ends, and then dipped in the paraffine, not in the vessel itself however. A pan with a piece of dandel in it stands above it, and the splints are held in it symmetrically with melted paraffine. When the ends of a bundle are placed on the dandel they suck up into themselves as much of the substance as is required.

After this comes the framing, i. e., placing the splints on ends inside a frame, and separating them by means of brass strips, which, as you would later type. This is done in order that a great many may be tipped and dried at once.

When a frame is completely filled it is locked with wedges, and the splints are then tipped like a large square brush, the ends of the splints answering to the bristles, although of course they are much further apart. The splints are now tipped gently on a flat iron plate, to render their ends perfectly level, and are then ready for dipping.

A SERIES OF BIG BLUE POTS.
In another room, arranged against the wall, are a series of magnificent blue pots. In these the composition is ready for dipping. The composition is first of all melted; then phosphorus, chlorate of potash, and other ingredients are added, and at a time. The phosphorus used for this, being highly dangerous, is kept in a large iron tank filled with water, and covered with an iron plate, locked with wedges, and a workman in front of it who smears the slab with the composition by means of a brush, holding a large frame full of splints with both hands, brings the tips of the latter down on the composition and raises them again, each one with a little wet ball on its end.

Now comes the drying. Running along the whole length of the building on one side are series of drying racks, along each side are racks into which the frames containing the newly tipped matches fit like shelves. When thoroughly dry, the frames are taken to another room, and a large iron slab is placed over them, and the splints are tipped again, each one with a little wet ball on its end.

Notice.

The price of gas, by the Mayville Gas Company, for the first of July, 1886, will be \$1.00 per cubic foot. By order of the Board of Directors.
ROBERT A. COCHRAN, President.

Do You Know
That DuLac's Swiss Balm is the best remedy for coughs, colds, croup, bronchitis, etc.

That DuLac's Swiss Balm will cure that neglected cold. Delays are dangerous. That Swiss Balm contains no morphia, no opium, thus making it safe and pleasant to take. That this valuable remedy only costs 25 cents a bottle and can be had at J. C. Pecor & Co.'s.

CHICAGO MARKETS.
FURNISHED BY W. A. NORTON.
Yesterday's Closing—July wheat, 74 1/2 c; corn, 30 1/2; pork, 8.80; August wheat, 75 1/2; corn, 30 1/2; pork, 8.80; 100 lb. wheat, 74 1/2; corn, 30 1/2; pork, 8.80.

August wheat, 75 1/2; corn, 30 1/2; pork, 8.80; 100 lb. wheat, 74 1/2; corn, 30 1/2; pork, 8.80.

August wheat, 75 1/2; corn, 30 1/2; pork, 8.80; 100 lb. wheat, 74 1/2; corn, 30 1/2; pork, 8.80.
